

Vision

Our vision at Warbstow Primary Academy is to open the door to the world beyond by giving all learners the skills and knowledge to achieve their full potential, by being collaborative, aspirational, showing resilience and always having empathy.

Our mission

To provide an aspirational school environment, which challenges learners with knowledge and skills for them to become ambitious citizens. Our values are our foundations and we C.A.R.E about everyone and everything around us.

Our school values

At Warbstow Primary Academy we C.A.R.E. about our world, our learning, each other, our families, our community and ourselves.

Collaboration

Here at Warbstow, children appreciate the importance of learning together and sharing our knowledge. They understand that through learning and collaboration, they can open doors and create pathways. Their successes will drive forward their ambitions. They understand the importance of being part of a bigger community.

Aspiration

Our pupils know the importance of having the determination to keep going when things are difficult. We encourage pupils to be curious and inspired to learn about the world in which they live. By asking questions, exploring perceptions, challenging points of view and harnessing their inquisitive nature, they increase their understanding of the world and consider their contributions towards it

Resilience

The children at Warbstow show resilience when facing new challenges and setbacks. We support them by developing a growth mindset, providing opportunities to learn from mistakes and celebrate progress. We encourage our pupils so that they feel capable to overcome difficulties, which builds their confidence and develops their inner strength.

Empathy

We encourage our pupils to celebrate the differences between all people, cultures and faiths. We place high importance on our relationships education and use an inquiry approach to develop pupils' abilities to respectfully disagree. By learning about the world in which they live and the people within it, they have a better understanding and mutual respect for all.
